

REMARKS

Claims 21-42 are pending. The Office Action incorrectly indicates that Claims 1-20 are pending. Claims 1-20 and Claims 21-42 added in the Amendment and Request for Reconsideration filed on February 8, 2005. Favorable reconsideration is respectfully requested.

Applicants would like to thank Examiner Sanders for clarifying that the correct serial number for the second application cited in the outstanding rejection is 10/526,435 (the '435 application).

The provisional obviousness-type double patenting rejection over the '435 application is respectfully traversed.

Claim 21 of the present application specifies at least one ester C). Component C) of Claim 1 of the '435 application is mineral oil. In fact, an ester is not specified in any of the claims of the '435 application. Accordingly, the subject matter of Claims 21-42 of the present application are not obvious over the claims of the '435 application. Accordingly, withdrawal of this ground of rejection is respectfully requested.

In addition, since the provisional obviousness-type double patenting rejection over the '435 application and application serial No. 10/525,529 are the only rejections in the case and those two applications have not yet issued, the Examiner is requested to pass this application to allowance.

Accordingly, Applicants submit that the present application is in condition for allowance. Early notice to this effect is earnestly solicited.

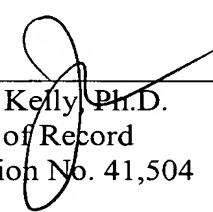

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
